

## i-Ctrl The Wireless Smart Home Device

**AIFA TECHNOLOGY CORP.**  
艾法科技股份有限公司

[Company Website](#)

**Booth No. P1222a**

### Winning Reason

- The solution can easily and user-friendly enable smart control for all traditional devices.
- Provide smart and effortless control through a 360°infrared signal transceiver in the range of 10 meters.
- Built in temperature and humidity sensing devices, which allow the customer to build a comprehensive profile of personal comfort.
- Information security certificated protection for personal privacy.

### Product Feature

Smart Home Features:

- supported TV, Set top box, Air-conditioning, Dyson Fan, Ceiling light, iRobot and more.
- Edit: i-Ctrl has a remote editor that allows you to customize each remote to make it your own.
- Voice control via Google Home and Amazon Echo
- Unlimited 7-day smart scheduling
- Share your device control with family
- Can be used by the whole family
- Saves energy and reduces bill
- Healthcare & IoT environmental control
