**Booth No. L0810**

### Winning Reason

- The ADATA HD770G Durable RGB External Hard Drive is awarded for providing its users a peace of mind. It combines dazzling, eye-catching product external design with durable, rugged physical protection into a portable storage system. HD770G is designed for serious e-sports players, Gamers and outdoor enthusiasts who care about the security of their data. Under its multi-colored RGB lighting surface with flow effect, the HD770G is a durable military-grade robust system that offers 2 meters IPX8 water proof, IP6X dust proof and 1.22 meter shock proof. In addition to physical security, HD770G also offers standard AES 256-bit encryption to keep the data virtually secure.

### Product Feature

- World's first durable RGB external HDD
- Technology-inspired design
- Beyond IP68 waterproof & dustproof, Can be submerged in 2 meters of water for 120 min
- Military-grade shock proofing
- Robust triple-layer construction
- Up to 2TB of capacity
- AES 256-bit encryption
