

## ATEN Portable All-in-One Streaming Studio

**ATEN INTERNATIONAL CO.,  
LTD.**

宏正自動科技股份有限公司

[Company Website](#)

**Booth No. P0514**

### Winning Reason

- The ATEN Portable All-in-One Streaming Studio is adequately designed to address the needs of youtubers and streamers in the consumer market. The ATEN streaming AV mixer integrates HD video switching, splitting, editing, overlaying, monitoring and audio mixing features previously only found in professional AV mixing consoles into a small profile system, with the addition of streaming-specific functionalities such as video/ audio capturing, encoding, converting, and supports for streaming platforms. This greatly reduces the complex equipment settings currently necessary for online live broadcasting, significantly lower the entry barrier. Furthermore, the small, portable profile and the adoption of iPad as user interface also make it possible to perform online live broadcasting anywhere.

### Product Feature

- All-in-one design
- PC-free and Software-free
- Well-designed Control Panel for Effortless Operation
- Advanced Setting via Intuitive App
- User-centered Mechanical Details
- Fanless and optimized thermal air flow design for quiet operation
- Ergonomic comfort from 7.5° tilting and hand rest area design
