AORUS MASTER 16

**GIGABYTE™**

GIGABYTE TECHNOLOGY CO.,  
LTD.

技嘉科技股份有限公司

### Winning Reason

AORUS MASTER 16 integrates flagship-grade processors and graphics into a remarkably slim chassis, balancing peak performance with portability through a high-efficiency cooling system and the locally-operated GiMATE AI Assistant. Designed to exceed the rigorous demands of elite gamers for speed, visual fidelity, and stability, it seamlessly unifies AI applications, premium audiovisual quality, and work-play transitions. This laptop stands as a definitive example of the next generation of gaming notebook evolving into comprehensive intelligent terminals.

### Product Feature

AORUS MASTER 16 is a flagship gaming laptop combining desktop-class performance, advanced cooling, and AI system control in a portable design. Configurable up to an AMD Ryzen™ 9 9955HX3D processor and up to NVIDIA RTX™ 5090 Laptop GPU, it delivers close to desktop-level computing in a slim 19.9mm chassis. The WINDFORCE Infinity EX thermal design supports up to 230W system power for stable, low-noise performance under sustained loads. GIGABYTE's exclusive GiMATE AI agent dynamically adjusts fan and power settings, and simplifies tuning with fast mode switching via MUX Switch and Power Gear III. A 16-inch OLED HDR1000, 240Hz, 0.2ms display balances esports responsiveness with creator-grade color accuracy for a next-gen mobile gaming platform.
