

## Golden Award Gaming & Immersive Tech

### Titan 18 HX Dragon Edition Draco Epic

Micro-Star International  
微星科技股份有限公司

### Winning Reason

The Titan 18 HX Dragon Edition DRACO EPIC transcends mere performance specs, establishing a commanding product identity through exquisite metal etching, anodic coloring, and a seamless edge-to-edge glass touchpad. Pairing flagship computing power with a 4K Mini LED high-refresh-rate display, it delivers a perfect harmony of performance, aesthetics, and user experience. This masterpiece represents the pinnacle of high-end gaming laptops, showcasing industry-leading standards in both technological integration and industrial design.

### Product Feature

The Titan 18 HX Dragon Edition DRACO EPIC gaming laptop is hailed as “the most powerful desktop replacement.” It features the latest Intel® Core™ Ultra 9 290HX Plus processor and NVIDIA GeForce RTX 5090 graphics, delivering exceptional computing and visual performance. Its 18-inch display is upgraded to a 4K 240Hz Mini LED panel with DisplayHDR 1000 certification. An advanced vapor chamber cooling system ensures stable performance even under heavy workloads. The laptop includes a Cherry MX Ultra Low Profile mechanical keyboard with 1.8mm key travel and per-key RGB lighting, along with a Mystic Light RGB touchpad. It also offers desktop-class I/O for versatile connectivity. A 99.9Whr battery supports long gaming sessions.
